## PRESIDENT NOT GOING TO LONDON PARLEY

### Roosevelt Not Thinking About Trip To London

Not Present Intention Of President To Attend Conference

SUGGESTIONS MADE BY MACDONALD

Giving Serious Thought To Strong List Of Delegates From United States

By GEORGE R. HOLMES  
International News Service Staff Correspondent

WASHINGTON, May 2.—President Roosevelt has no present intention of journeying to London to attend the world economic conference this summer.

This was stated authoritatively today in response to published reports that Mr. Roosevelt was considering such a trip after the adjournment of congress, now expected about the time the conference convenes in mid-June.

During Ramsay MacDonald's visit to Washington, he suggested to the president that he might be able to pay the conference a flying visit and expressed the thought that it would enhance the chances of the success of the gathering. Mr. Roosevelt, it was said, merely responded politely that he would like to do so but gave the project no serious consideration.

No Thought Of Going  
While the president's intimates are not entirely closing the door to the possibility of such a journey, they insisted today that under present conditions it is not being considered.

### PA NEW OBSERVES

A watchful eye should be kept on grass and stump fires. They can very easily develop into forest fires of serious consequence.

The fame of New Castle's municipal golf course has spread some distance, as was shown by the instance which happened Sunday. A group of six Pittsburgh golfers motored here Sunday, bringing their lunch with them and spending the day on the local course.

Golfers who visited the "muni" course over the week-end found it in wonderful condition. The fairways are carpeted with a thick covering of green, which resembles a huge velvet rug. Maple trees have been set out along the borders of the fairway, separating the various holes, and along the lane leading into the clubhouse, larch trees have been set out, which will greatly enhance the beauty of the course in years to come. The lake to the left of the 18th hole has been dredged out and is filled with water. It is truly a beautiful spot this spring, and golfers are marvelling at the improvements made this year.

Reports received over the week-end of several serious fires in fields and forests in Lawrence County, emphasize the necessity of extreme caution with fires in the woods these days.

Selection of the recruits from Lawrence county for forest army work should be ordered very shortly, it would appear. Recruits are being selected in some other counties of Western Pennsylvania, and will soon be sent to the forests.

A change in hours was made yesterday in the children's department.

### Seventy Nine Are Held By Guardsmen In Iowa

(International News Service)  
LE MARS, Ia., May 2.—With 79 farmers held as suspects in the recent mortgage foreclosure violence the probability of a military trial for the prisoners loomed today as National Guardsmen continued the roundup of prisoners.  
That a court martial may be the result of the abduction and assault of District Judge Charles C. Bradley was indicated by an order received by Maj. Gen. Matt D. Tinley at Denison from Gov. Clyde Herring. The communique authorized appointment of a military commission to "maintain public safety."

### State Work Relief Compensation Fund Creation Proposed

Legislature Seeks To Meet Relief Work Compensation Crisis In Cities

Municipalities Would Pay 25 Cents Per Man Per Week To State Fund

(International News Service)  
HARRISBURG, May 2.—A contribution of \$25,000 by the state to a special workmen's insurance fund was the overture made today to save work relief projects from complete abandonment.

Amendments were offered in the House last night by Rep. Habbysaw, Dauphin, whereby the Rice bill may be acceptable both to labor leaders and to insurance carriers. The judiciary general committee, headed by Rep. James H. McClure, Allegheny, is considering Senator Rice's measure which, with the amendments, proposes that a state work relief compensation fund shall be created by the state.

Would Start New Fund  
The state emergency relief board would appropriate \$25,000 as the nucleus of the fund. The state would pay 25 cents per man per week into the fund. This is a reduction of 75 cents from the rate fixed by the state compensation rating and examining board. The \$1 rate was so burdensome that the great majority of work relief in Pennsylvania has been discontinued.

No compensation would be paid, however, for the first 26 weeks of disability and it is this feature which labor leaders are opposing. The waiting time for other injured workers is only ten days.

As an overture to the insurance carriers, the amendments also propose that the regular insurance fund shall receive from the work relief fund 17 per cent of the money paid out by the work relief fund for compensation.

### Defy Order To Turn In Gold

Open Defiance To Hoarding Edict Of Government Is Reported

AWAIT ACTION BY TREASURY HEAD

By ROBERT S. THORNBURG  
International News Service Staff Correspondent

WASHINGTON, May 2.—Openly defying the treasury to enforce its call for gold, attorneys representing clients with several million dollars of the precious metal in effect said today "try and get it."

It was contended that the Act of March 9, providing authority for the secretary of the treasury to call all gold and gold certificates is unconstitutional.

One lawyer, who declined to disclose the identity of his client, said that about \$150,000 in gold coin was held in a safety deposit box of a New York bank.

"I have already conferred with treasury officials and have informed them that we have no intention of returning the gold to the Federal Reserve Bank," the attorney said.

"My client is not an American citizen and is not now in the United States. We shall do nothing, of course, until the treasury turns the matter over to the department of justice and some action is taken to obtain the gold."

Thus far the treasury has not indicated specifically what will be the procedure to recapture gold, except

### WILL ROGERS says:

(Special To The News)  
NEW YORK, May 2.—Everybody is happy here in New York tonight; the market went up today. Spirits here just go up or down according to that day's market. They think the whole United States just depends on what pocket the little white ball rolled into on the exchange roulette table that day.

But our country has got so that each one of us have to live by a "racket" of some kind, and none of us must be too critical of the other fellow's "racket." When you figure it right down, none of us are in a really essential business but the farmer, and he raises so much that even his business is partly non-essential.

But we got to be tolerant, for these New Yorkers are likeable rascals, even when they are skinning you.

Yours,

### Three Overcome By Smoke Fumes

Fire At George Junior Republic At Grove City Last Night

(Special To The News)  
GROVE CITY, Pa., May 2.—Three young men of the George Junior Republic, John Dukavitch, aged 17, president of the republic; John Bindis, aged 19 and Floyd Truxall, aged 18, members of the republic, were overcome last night following a fire in the chapel, which was extinguished without loss to the building. They are reported to be recovering today in the hospital.

Under the altar of the chapel there is a basement, the only means of entrance to or egress from is through a small opening in the floor and by means of a ladder.

A small boy of the republic intent on exploration of this place, took some papers and matches and went down. There he set on fire the papers and becoming alarmed, made his exit and spread the alarm. The Republic fire department responded and put out the fire in short order.

Dukavitch then went into the basement place for a prayer book he valued and did not return, due to the fumes of the fire extinguishers overcoming him. The other two young men went in after him and also failed to return.

Then the alarm was spread and a rescue party of real proportions was formed and the young men were finally rescued from the basement by cutting a hole in the floor through which they were brought out.

### Will Ask Italy Agree To Truce On World Tariff

Italian Finance Minister Guido Jung Has Arrived In Washington

PLANS TO CONFER WITH ROOSEVELT

Hope To Induce Mussolini To Support American Plan For Reviving Trade

(International News Service)  
WASHINGTON, May 2.—With the arrival of Italian finance minister Guido Jung, President Roosevelt and his experts today prepared to convert Italy to the American program of ideas for world economic recovery.

Efforts will be made first to induce Premier Mussolini to support the American plan for an immediate international tariff truce to last until the end of the world economic conference.

American officials believe if the United States can win Italy's support for an immediate truce, it may be possible to induce Great Britain, France and Germany to fall in line. So far, the latter three nations have been reluctant to agree to the truce in advance of the conference.

### Beer Control Bill May Pass In House Today

By ROBERT F. GORMAN

HARRISBURG, May 2.—With organized opposition apparently submerged, the house was prepared to act finally today on the McClure beer control bill.

The bill passed second reading last night without a battle, minor amendments were offered, however, necessitating return of the measure to the senate for concurrence.

The beer taxation bill was on the senate's second reading calendar. It was reported from committee last night with the tax standing at \$1.24 per barrel and a half-cent per bottle. The bill passed first reading.

Action Delayed.

### Cascade Park Operation Plan Is Considered

Proposal Of Penna. Power Co. Is Informally Given To Council

COUNCILMEN ARE WELL IMPRESSED

Proposition Will Be Presented In Writing At Session In Near Future

Mayor Mayne and councilman colleagues met with Louis B. Round, vice-president of the Pennsylvania Power company today in city hall relative to the proposed operation by the city, of Cascade Park, urged in resolutions submitted to council at Monday's meeting.

In brief the proposal of the Pennsylvania Power company, according to Round is to let the city assume control of the park, for the use of everybody, at a rental of \$1.00 a year, the city to appoint a supervising commission to have charge.

The company stipulated however that before anything is done at the park, that there shall be named a competent board of appraisers to put a value on the property so that if the company can sell in the future the value would be established.

The proposition will be placed in writing and submitted to council at some future formal session as today's discussion was informal. However, councilmen indicated that the company's proposition looks favorable to the city.

### Socialist Labor Heads In Germany Are Under Arrest

(International News Service)  
BERLIN, May 2.—Striking with dramatic swiftness at "marxist" labor elements in the Reich, police and Nazi storm troopers today arrested all socialist labor union leaders in a series of sweeping raids that translated the May Day pronouncements of the Nazi government into drastic action, the official drag-net brought a total of 50 socialist labor leaders into custody.

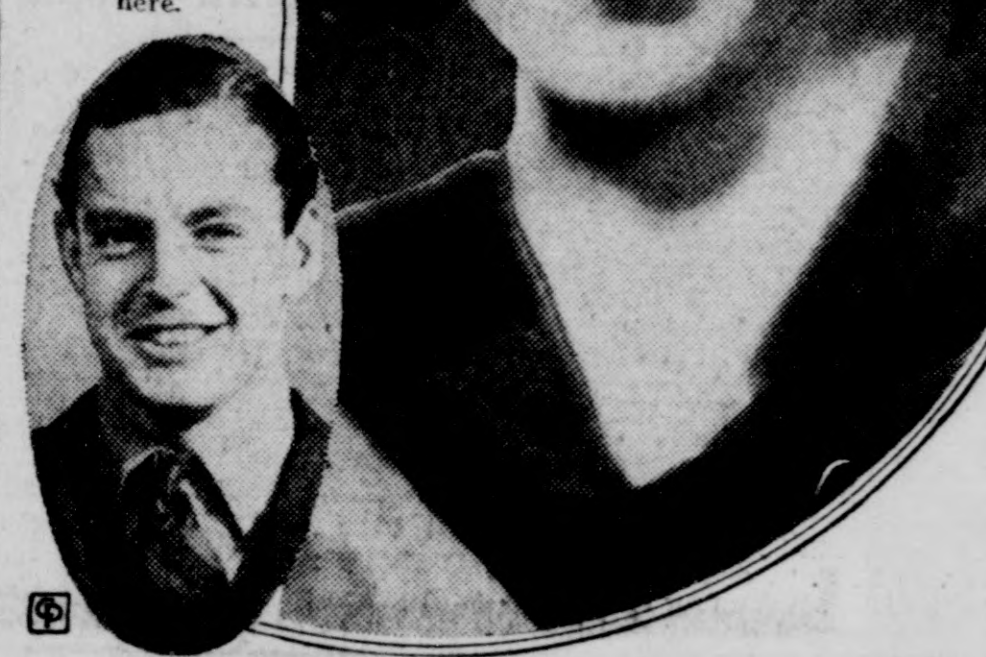

Among those arrested were Theodor Leipart, president, and Peter Grosse, vice-president, of the Grassmann, vice-president, of the Socialist Federation of Labor. Rudolph Wissel, former minister of economics, was also held.

All labor union funds, estimated at several million marks, were confiscated.

### Visits Girl Here; Then Takes Life

Hadley Man Dies At Home Monday From Injuries Inflicted Sunday

LEFT LETTER TO NEW CASTLE GIRL

Believed to have been despondent over ill health and failure to find employment, John Leslie Bartz, aged 24 years, of Hadley, fatally shot himself Sunday evening, dying late Monday in the Greenville hospital.

Bartz had visited a girl in New Castle Sunday, and upon returning to the home of his brother-in-law, Ralph Ohle, of Hadley, went to his room, where he fired a shot into the breast, near the heart. Members of the family rushed to his room and found him lying on the bed. They believed he was dead, and as they left the room to summon aid, another shot rang out. Going back to the room, they found the young man had fired another bullet through his right temple.

He had been employed with the state highway department in their office at Franklin until six months ago, when the force was reduced there and he lost his job.

A letter, addressed to the girl in New Castle, was found in his car, but the contents and the girl's name were not made known by Coroner W. A. Applegate, of Mercer county, who investigated the case.

### Clerk In Levin Store Is Victim Of Lone Bandit

Robber Enters Store On Moravia Street This Morning And Gets \$253

MAKES ESCAPE FROM DISTRICT

Police Given Description Of Bandit And Hope To Apprehend Him

A lone holdup man, entering the store of Sam Levin, 1330 Moravia street, pulled a gun on Saul Margolis, aged 28, clerk, who was alone in the store, about 10:15 o'clock this morning, compelled Margolis to go to the cash register, helped himself to the money there, then compelled Margolis to open the safe and seized all the money he saw there.

Warning Margolis, if he valued his life to remain quietly in the store for ten minutes, the holdup man then walked out of the front door and disappeared.

Secures \$253  
Cash actually secured by the holdup man amounted to \$253. He overlooked something over \$350, which was in the safe.

Margolis did not heed the warning but called the police, then ran out and endeavored to locate the bandit but could not do so.

He was informed by others who saw the man without realizing what had transpired, that he had walked down the tracks to Gardner avenue and then over to the P. and L. E. tracks and gone north.

Police officers picked up the trail at that point and trailed a man answering the description to the Franklin railroad bridge over the Shenango.

City officers assisted by State Police Officer Heinrich and State Highway Patrolman Lawton covered

### Seventeen Killed In Cuban Battle

Rebel And Federal Troops Clash Near San Luis—Rebels Flee

(International News Service)  
SANTIAGO, Cuba, May 2.—Seventeen combatants were killed and many wounded in a new clash between rebels and federal troops at Jiguani, near San Luis according to reports received here today from the battle front.

The fighting marked a resumption of hostilities between revolutionaries and forces of President Gerardo Machado's government following a brief period of relative quiet after the excitement of Saturday's uprisings.

According to sketchy information available here, the rebels fled to the mountains after an hour's skirmish.

### Chicago Home Is Damaged By Bomb

Gangsters Make Good On Threat To Bomb Home Of Union Official

(International News Service)  
CHICAGO, May 2.—Explosion of a time bomb at the Lake Forest home of W. A. Metzger, business agent for the International Brotherhood of Teamsters, was definitely linked today to the gangland warfare for control of legitimate unions.

The bomb, the sixth to explode here in the past 24 hours, rocked the quiet suburb as 25 leaders of the union headed by Metzger were meeting at his residence. The blast ripped away the front porch and nearly injured Mrs. Metzger and her two daughters as they were leaving the home. Flying timbers demolished an automobile parked at the curb.

Metzger explained to police that gunmen in the hire of the Capone syndicate threatened violence should he refuse to ally the International Brotherhood with the outlaw Chicago Teamsters' Union, which is controlled by the Capone gang.

He said he had been given "a week to think it over."

# LOSE IN MOVE FOR OLD AGE PENSIONS

## State Senate Against Plan

Measure Will Apparently  
Die In Senate For Pre-  
sent Session

### DELAY STATE VOTE ON PROPOSITION

(International News Service)  
HARRISBURG, May 2.—Lab-  
or's long fight to place old age  
pension legislation before the  
voters in November appeared  
doomed today after an unsuccess-  
ful attempt to discharge the  
Senate committee on pensions  
and gratuities from further con-  
sideration of the proposed con-  
stitutional amendments.

The strength displayed by pension  
advocates in carrying the resolutions  
through the House was weak in the  
upper chamber. The move to dis-  
charge the committee, which has  
held the legislation since April 5,  
was defeated, 20 to 27. All align-  
ments were split.

**Factional Fight**  
Defeat of the motion virtually  
sounded the death knell of old age  
pensions until 1938. The 1929 as-  
sembly adopted old age pension  
legislation but it required the sanc-  
tion of the present assembly to be  
placed on the November ballots.  
This apparently is an impossibility  
because members of the pensions  
and gratuities committee have shown  
no disposition to release the resolu-  
tions.

Labor's failure represented a vic-  
tory for the Mellon-Grundy faction  
over the Vane and Pinchot groups.

### ROOSEVELT NOT THINKING ABOUT TRIP TO LONDON

(Continued From Page One)  
ent conditions he has no thought of  
going.

For one thing, they pointed out  
that the outstanding example of an  
American president crossing the  
ocean to personally participate in  
an international conference—that of  
Woodrow Wilson—was not a happy  
one. There are many who believe  
that Mr. Wilson would have been a  
greater influence in the Versailles  
conference had he remained in  
Washington.

Instead of thinking about per-  
sonal participation at London, ad-  
ministration officials said that Mr.  
Roosevelt is giving more thought to  
the selection of a strong and repre-  
sentative American delegation.

**Selections Made**  
Some selections already have been  
made. Senator Key Pittman (D)  
of Nevada, probably will be on the  
delegation to handle the questions  
involving silver.

James M. Cox, Democratic presi-  
dential candidate in 1920, has been  
offered a place on the delegation,  
and probably will accept. Cox de-  
clined the ambassadorship to Ger-  
many on the ground he did not care  
to accept a permanent post, but in  
so doing expressed a willingness to  
serve the administration in any  
temporary capacity.

**Stimson May Go**  
Former Secretary of State Henry  
L. Stimson is another possibility.  
Stimson is a Republican, of course,  
and his appointment would tend to  
give the delegation the required  
non-partisan aspect. One or two  
other Republicans will be accorded  
places, too, according to present  
plans.

Mr. Roosevelt is understood to be  
having some difficulty in the Re-  
publican selections, owing to the  
fact that most outstanding Repub-  
licans are not sympathetic with the  
Roosevelt-Hull formula of radical  
reduction in world tariffs.

### PITTSBURGH DISTRICT ASSEMBLY TO CONVENE HERE THIS EVENING

(Continued From Page One)

then Dr. Jenkins addressed the  
group, bringing greetings from the  
New England and New York As-  
semblies, which he and Mrs. Jenkins  
attended.

He spoke of the great spiritual,  
mental and physical darkness that  
hovers over Africa, but he said God  
has aided in relieving the intense-  
ness of this darkness, through the  
work of the missionaries.

He spoke of their particular work  
in the territory of Portuguese, East  
Africa, where they were stationed  
and said that according to the cen-  
sus of the country and the census  
of missionaries, he and Mrs. Jen-  
kins were responsible for eighty-two  
thousand persons, and he said the  
responsibility of this number seemed  
too great to make any impression  
on, but with the aid of the Lord  
and the gospel, in the ten or twelve  
years they have been there they have  
succeeded in bringing several thousand  
to Christianity.

He told the audience that it was  
through their sacrifices in sending  
money for foreign missionary work,  
that the lifting of the darkness is  
possible.

**Week's Meetings**  
Today, beginning at 8 o'clock this  
morning, the women are in session,  
transacting the business of the dis-  
trict, hearing reports and electing  
officers. The session will last  
throughout the day.

The assembly will meet this eve-  
ning at 7:30 P. M. in the First  
Presbyterian church and Dr. R. T.  
Williams, general superintendent,  
of Dallas, Texas, will bring the  
opening message of the twenty-sixth  
annual assembly of the Church of  
the Nazarene.

The opening business session will  
begin Wednesday morning at 8  
a. m. E. S. T. with the 66 ministers  
giving their reports and other busi-  
ness transacted.

Services will be held each evening  
at 7:30 E. S. T. and there will be  
evangelistic speakers for each meet-  
ing, and special singing and music.

The climax of the week's services  
will come in the Sunday, May 7 ser-  
vice at 8 a. m. Sunday School ser-  
vice at 9 a. m. and worship service at

### BEER CONTROL BILL MAY PASS IN HOUSE TODAY

(Continued From Page One)

it was found that copies were not  
on file with all members. Mumb-  
ings that the copies had been de-  
liberately torn from the files in  
order to delay second reading action  
could not be substantiated. Speaker  
Taft passed over the bill tempo-  
rarily and directed that additional  
prints be made immediately. This  
enabled second reading passage two  
hours later and prevented a full  
day's delay.

The control bill provides that  
wholesale and retail licenses shall  
be issued by county treasurers with  
fees ranging from \$75 to \$300 ac-  
cording to the population of the  
municipality. This feature, which  
has been the major basis of contro-  
versy, is acceptable to Gov. Gifford  
Pinchot.

Burr McIntosh, noted stage and screen actor, is playing Old Man of the Sea. He's rehearsing for the marine pageant to be held in Long Beach, Cal., next month.

## New York State Fixes Wages Of Women-Children

### First Experiment For "Fair Minimum Wage" For Wo- men And Children Workers

(International News Service)  
ALBANY, May 2.—New York  
state today started out on its first  
experiment of fixing a "fair" min-  
imum wage for women and children  
in industry.

Governor Herbert H. Lehman ap-  
proved the Wald bill establishing a  
mandatory minimum wage system  
with prison sentences for employers  
who fail to carry out the order of  
the minimum wage board and the  
state industrial commissioner.

There is no set minimum wage  
board but one composed of nine  
members will be appointed by the  
industrial commissioner for each  
particular kind of employment. This  
board will be composed of three re-  
presentatives of the employers, three  
representing employees and three re-  
presenting the public.

The new law provides that an em-  
ployer who fails to obey a manda-  
tory minimum fair wage order shall  
be guilty of a misdemeanor and on  
conviction be punished by a fine of  
not less than \$50 nor more than  
\$200, or by imprisonment of not less  
than 10 days nor more than 90 days  
or by both.

### TRACTION COMPANY COMPLETES WORK

T. C. Moore, superintendent, New

and brick on the company's por-  
tion of the street have been raised.  
The state highway department it is  
said will repave the cartway outside  
of the rails.

## Missionary Society Presents Minstrels

### Large Audience Grets Songs And Jokes In Reformed Presbyterian Church

Under the auspices of the Young  
Ladies' Missionary society of the  
Reformed Presbyterian church, a  
large audience enjoyed the minstrel  
show presented Monday evening.

The Black and White troupe of lo-  
cal stars, whose combination of  
jokes, harmony, ballads and end  
men's songs kept the large crowd in  
a constant uproar of merriment,  
were a big hit.

A special feature of the evening  
was the trumpet solo by Reed Gor-  
man and was well received by the  
audience. The soloists were Carl  
Gilmore, Glenn Cunningham, Hen-  
ry Jenkins, George Zents, and  
James Blaine. The end men were  
Frank Gerould and Lew Jenkins  
with Ralph Eakin as interactor.

A yodeling number by Reed Mc-  
Cullough brought forth a round of  
applause and vaudeville acts were  
presented by Hen and Lew Jenkins  
and Frank Gerould, with a quartet,  
McCullough, Gilmore, Zents, and  
Blaine.

Instrumental numbers in the olio  
were presented by the orchestra,  
featuring violin numbers by Glenn  
Cunningham, saxophone numbers  
by Lew Jenkins and trumpet num-  
bers by Gorman. Paul Montgomery  
was at the piano throughout the  
evening, and gave several solos.

## Relief Work Is Showing Decrease

### Indications Are That Peak Has Been Passed In Caring For Jobless

County Treasurer P. O. Elder is  
beginning to see signs of returning  
prosperity owing to the fact that  
within the past week, a number of  
persons who have been receiving aid  
from the county, have secured work  
and are being taken off the relief  
rolls.

"The men seem overjoyed to get  
back to work," said Mr. Elder. One  
of them said that he had never had  
to ask help in his life before, and  
he hoped that he never would have  
to again.

The man said that this depression  
had been a lesson to him and here-  
after when he has work he is going  
to be careful to lay up something to  
keep him when he is out of work.

Employment in New Castle so far  
has not increased as rapidly as in  
some places. Over the country the  
reports seem to indicate that there  
is a gradual picking up. With the  
big relief projects now being plan-  
ned it is hoped that the county  
will be relieved of many who have  
been receiving help. Some of these  
will be only to glad to get off as  
soon as they can get work, but there  
are others who appear to be per-  
fectly satisfied to receive aid indef-  
initely.

## Pittsburgh Engineer Gives Luncheon Talk

### Lions Club Hears Westinghouse Man At Noon; Air Con- ditioning Topic

The possibilities which air con-  
ditioning holds as a future indus-  
try and its outstanding contribu-  
tions to society were interestingly  
discussed by A. M. Dudley, Pitts-  
burgh, supervisor of engineering de-  
velopments for the Westinghouse  
Electric & Manufacturing company,  
before the Lions club today.

Mr. Dudley's topic was "Engineer-  
ing and Business."

### DEFY ORDER TO TURN IN GOLD

to say that an effort would be made  
to get all gold hoarded in excess  
of \$100 back to the reserve banks  
and the treasury.

Secretary Woodin and Attorney  
General Cummings have been some-  
what vague, although they insisted  
that "the appropriate action would  
be taken."

In the opinion of experts a test  
case could be brought within a short  
time. Justice department officials  
said that in all probability such  
a case would be rushed through the  
courts to the supreme court to guide  
the government in its future course.

holdup man.

**Forces Clerk to Get Money**  
According to Margolis, the clerk,  
the holdup man entered the store  
and asked where the boss was. Mar-  
golis answered that he was not yet  
on duty.

The holdup man then pulled a  
gun and walked back to the cash-  
ier's cage with Margolis, made the  
latter go into the cage and open the  
cash register as he stood immedi-  
ately behind him, gun in hand.  
Then he formed him to the safe,  
and made him open it. Then he  
grabbed all money in sight. He  
then issued his warning and left.  
According to Margolis, the hold-

up man was dark complexioned and  
about five feet ten inches in height.  
He had on a dark blue suit, white  
shirt, no hat. He was carrying his  
coat on his arm and his vest was  
unbuttoned. The collar of his shirt  
was unbuttoned.

It will be remembered that it was  
but a few months ago since Mr. Le-  
vin, proprietor of the store, was held  
up on South Mercer street, as he  
was getting into his car, compelled  
to drive north of the city and rob-  
bed of nearly \$4,000.

**DR. O. L. REID  
IS MONDAY SPEAKER**

The bi-weekly meeting of the New Castle Woman's club was held Monday afternoon in the Highland church, with Mrs. E. F. G. Harper in the chair. A number of new members were added to the club's enrollment.

Mrs. B. H. Kannenberg and Mrs. J. Glenn Berry were ushers for the afternoon and the speaker was Dr. O. L. Reid, president of Yale School of Youngstown, Ohio, who had as his subject "The Adams Family."

He told of the illustriousness of the family, of the life of John Adams, his ability as a great statesman; then he went into the life of his son, John Quincy Adams, telling of his brilliancy of mind from a small child. He gave great credit to the women who had been selected as wives by the Adams men, for the careful training of the minds of the children. He gave many high spots in the life of John Quincy Adams, and he said the Adams family has been carried on through the generations, members of this family being still with us, as Charles Francis Adams, secretary of the navy under Hoover, is a direct descendant of John Adams, and it is possible that his son, Charles Francis Adams, IV, who is now a student at Harvard, may step into the country's limelight at a later day.

He dwelt upon the perfect minds of the Adams family and the program of the family, which is planned through the coming generations.

## Officers Named At Meeting Of Bar Association

Attorney James W. Rhodes  
Is Chosen President For  
The Ensuing Year

### COPY OF FAMOUS TREATY PRESENTED

Attorney Harper Reads Pa-  
per On Acquisition Of  
Land By William  
Penn

Of rare historical interest is a photostatic copy of the Treaty of Fort Stanwix, made by William Penn with the Indians, which was presented by Attorney E. F. G. Harper to the Lawrence County Bar Association at its annual meeting at the court house on Monday afternoon. The copy was encased in a neat frame about 18x24 inches, a part of the treaty covering each side of the frame. Mr. Harper also read an interesting paper in which he detailed the story of the historic document.

Officers for the ensuing year were also elected at the meeting as follows:—president, James W. Rhodes; vice-president, Rufus C. McKinley; secretary, Alvah Shumaker; treasurer, Clarence Patterson; trustees: Roy M. Jamison, Richard F. Dana and J. Norman Martin.

The paper read by Attorney Harper on the Penn treaty was as follows:—

To the Members Of The Lawrence County Bar Association:—

Gentlemen:—

Through the courtesy of Hon. John C. Dight, deputy secretary of internal affairs at Harrisburg, Pennsylvania, I have the honor of presenting to this association a photostatic copy of the Treaty of Fort Stanwix, dated October 26th, 1764.

William Penn secured title to what is known as "Penn's Woods" by a charter issued to him by King Charles of England, dated March 4th, 1681, however, Great Britain had no more vested interest in what is now known as the state of Pennsylvania than any other nation. The real ownership of this territory was, no doubt, originally held jointly by the several Indian tribes that roamed the woods before the advent of the white man upon our shores.

Penn, at the time of the receipt of his charter from the King of England was thirty-seven years of age. It was given to him in payment of a debt which King Charles owed Admiral Penn, the father of William Penn, amounting to the sum of \$8,000.00. The King of Eng-

land gave no consideration to any claim which the various Indian tribes may have had, or claimed to have in this vast territory.

The matter of naming Pennsylvania came up; Penn said New Wales, the name was not liked and some of the king's advisers suggested Sylvania, spelling it "Silvania" but when the name was suggested to King Charles he said call it Pennsylvania, but Penn demurred, stating that people would say that he was praising himself, Charles replied that he was not naming the territory after him, but after his father the admiral.

Penn was offered a bribe of \$25,000.00 to use some other name, but the name stuck and the grant was known as Pennsylvania, but Penn demurred, stating that people would say that he was praising himself, Charles replied that he was not naming the territory after him, but after his father the admiral.

Penn was offered a bribe of \$25,000.00 to use some other name, but the name stuck and the grant was known as Pennsylvania, but Penn demurred, stating that people would say that he was praising himself, Charles replied that he was not naming the territory after him, but after his father the admiral.

While a charter for this land was granted to William Penn, the title thereto at that time was held by the Duke of York, so far as British justice went in those days.

Eventually there were four titles to Pennsylvania, namely:—the charter from King Charles; two deeds from the Duke of York and one additional grant from Charles. All these original grants and deeds gave vague and imperfect descriptions of the territory.

One deed from the Duke of York embraced the three upper counties on the Delaware river known as Chester, Philadelphia and Bucks, and the other deed included the three lower counties on the Delaware river which encompassed the counties of Kent, Sussex and New Castle, now the state of Delaware. The description of the property in one of the deeds from the Duke of York began twelve miles from the city of New Castle, the Mason and Dixon line begins here, and after circling around New Castle at a radius of twelve miles ran westward and now forms the southern boundary line of the state of Pennsylvania.

Penn secured title March 4th, 1681, in the meantime he opened real estate office in London and sold lots in Philadelphia, after having sent over a surveyor who laid out a plot of lots, this was the original plot of the present city of Philadelphia.

The several Indian tribes claimed the country, by right of possession. Penn treated them gently, establishing a policy of fair dealing with them; buying tracts of land from them and paying them therefor. This was the first time in history where the Indians sold their properties and were paid for them. The first treaty with the Indians was made in 1682, by William Markham, Penn's surveyor general, three months before Penn arrived from England.

After Penn's arrival he made a treaty with the Shikamaxon Indians, whereby they gave up their rights to the present counties of Chester, Philadelphia and Bucks, the purchase price being paid in kettles, pots, pans, etc. The Treaty of Friendship was made between Penn and the Indians the year after his arrival, there is no written record of this treaty in existence.

William Penn died in 1718 and the territory of Pennsylvania went to his three sons John, Thomas and Richard and the ownership of the province continued in these three sons and their heirs until the Revolutionary war when the supreme council of Pennsylvania was formed and the rights of the Penns were declared forfeited; however, the claims of the Penns were not finally settled until about 1883 when the legislature of Pennsylvania appropriated the sum of \$100,000.00 to extinguish the claim of the Penns to our state. These claims were general with the exception of a few private tracts. The heirs of William Penn still own considerable land in Pennsylvania and at the present time their representatives have offices in Philadelphia.

Penn established the custom of purchasing lands from the Indians

and receiving deeds from them for the lands purchased. There were 132 deeds and agreements in all made by Penn and his heirs with the Indians of which the first was in 1682 and the last in 1785, making a period of 103 years covered by these deeds. The Fort McIntosh Treaty and conveyance at Beaver was the last.

With the close of the Revolutionary war many of the settlers from eastern Pennsylvania migrated over the mountains to western Pennsylvania, taking possession of lands claimed by the various Indian tribes which caused considerable trouble and bloodshed.

On the 5th day of November, 1768, at Fort Stanwix, located at Rome, New York, a treaty was made between the six nations (comprising the following Indian tribes:—the Mohawks, Oneidas, Onondagas, Senecas, Cayugas and Tuscaroras), also the Delaware and Shawnee tribes, who were claiming all the territory of Pennsylvania west of the mountains, and the heirs of William Penn whereby there was ceded to Thomas and Richard Penn, for a consideration of \$50,000.00, the vast territory which included all the lands in southwestern Pennsylvania, south of the line from Cherry Tree (which is located at the intersection of the lines of Indiana, Cambria and Clearfield counties) to Kittanning and south of the Allegheny and Ohio rivers.

By this purchase the territory in the present counties of Clearfield, Washington, Fayette, Somerset, Westmoreland, Cambria, Susquehanna, Sullivan, Wyoming, and parts of Beaver, Allegheny, Armstrong, Indiana, Clearfield, Centre, Clinton, Lycoming, Bradford, Lackawanna, Wayne, Luzerne, Columbia, Montour, Northumberland, Union, Pike and Snyder passed forever from the ownership of the Indians who had roamed over it from the Delaware to the Ohio.

The supreme executive council of Pennsylvania petitioned the Continental congress about the year 1783, requesting that commissioners be appointed to meet with the several Indian tribes in Pennsylvania for the purpose of settling the claims of these Indians to western Pennsylvania territory not previously ceded by them. The committee appointed consisted of Oliver Wolcott of Connecticut, General Richard Butler, of Pennsylvania, (after whom Butler county was named) and Arthur Lee of Virginia, all on the part of the United States, and Samuel J. Ailes, William McClay, (later one of the first United States senators from the state of Pennsylvania) and Francis Johnston on the part of the state of Pennsylvania.

The meeting of these various representatives met with the representatives of the different Indian tribes known as the Six Nations at Fort Stanwix, now Rome, New York, the treaty which followed was known as the Fort Stanwix Treaty of October 23rd, 1784. As nearly as can be estimated this purchase was for an area of 13,550 square miles, and the purchase price was \$50,000.00.

The present area of the state of Pennsylvania is 45,126 square miles, by this second Treaty of Fort Stanwix there was acquired slightly less than 1-3 of the present area of the Commonwealth.

The approximate description of the lands acquired by this treaty is as follows:—Beginning on the south side of the River Ohio, where the western boundary line of the state of Pennsylvania crosses the said river, near Shingas' old town at the mouth of Beaver creek; thence by a due north line to Lake Erie; thence due east, along the present boundary line between the states of Pennsylvania and New York to the east side of the Susquehanna river; thence by the boundary lines of the Fort Stanwix Treaty of November 5th, 1768, to Williamsport on the western branch of the Susquehanna river; thence up this river, following the meanderings thereof, to Cherry Tree at the junction of the dividing ridges of the present counties of Indiana, Clearfield and Cambria; thence in a westerly direction to the Allegheny river at Kittanning; thence down the Allegheny and Ohio rivers to the place of beginning.

From this purchase the following counties were formed:—Lawrence, Butler, McKean, Potter, Mercer, Clarion, Elk, Tioga, Crawford, Forest, Jefferson, Venango, Warren, Cameron and parts of Erie, Clearfield, Allegheny, Bradford, Indiana, Lycoming, Armstrong, Clinton and Beaver.

The rate of purchase price of this territory was thirty-seven cents per square mile. The cost of 16 2-3 acres was one cent, for 166 2-3 acres ten cents, and for 1666 2-3 acres one dollar.

The cost of the land embraced by the county of Lawrence, whose area is 360 square miles was \$133.20. The land covered by the present city of New Castle cost the sum of \$2.25.

The triangular piece of land on Lake Erie, known as the chimney of the state of Pennsylvania, was claimed by the state of Connecticut, but the national government took over the Connecticut claim and sold this territory to the state of Pennsylvania about the year 1792.

## Mahatma Gandhi Studying Stars

By C. S. De ANDRADE  
International News Service Staff  
Correspondent

POONA, India, May 2.—Astronomy has captured the imagination of Mahatma M. K. Gandhi.

Imprisoned in the Poona jail in punishment for his ceaseless efforts in behalf of India's freedom, the Mahatma has found in peaceful study of the stars rest for his mind and inspiration for his soul.

"Astronomy has always interested me," he said. "When I entered jail this time I took it up with greater interest than ever before, and now it has become a passion with me."

### Impressive Sight

"Every free minute I get I devote myself to it. It is a wonderful subject and more than anything else impresses upon me the mystery of

God and the majesty of the universe.

"To be lying on your back in the open air on a starry night and studying universe after universe in the immeasurable expanse—you cannot help becoming a worshiper of God."

"My mind leaps with joy as I do so. It is marvelous."

The Mahatma, however, considers himself a novice in the difficult science of the stars.

"My studying does not require a knowledge of higher mathematics," he said. "Because my interest in astronomy is not professional, I have been reading numerous books on the subject and with the aid of the apparatus before me I have no difficulty in identifying the main and some of the lesser constellations."

## Veteran Of Skies Feeling Lonesome

Los Angeles Resting In Naval  
Aircraft Station At  
Lakehurst Alone

(International News Service)

LAKEHURST, N. J., May 2.—Once again the Los Angeles, graceful veteran of the skies, rests in the giant naval aircraft hangar here, tragically alone.

Cradled safe from the winds and rains against the north wall of the dirigible shelter, the Los Angeles stands as though waiting patiently the return of her mate, the ill-starred U. S. S. Akron which carried 73 men to their doom in an electrical storm off the New Jersey coast.

Eight years ago the Los Angeles knew the same solitude.

Back in 1925, the Shenandoah and the Los Angeles were partners. One day the Shenandoah took to the air and sailed proudly away, her silvery sides shimmering in the gay sunlight of an early autumn day.

Across the spaciousness of the dirigible covered-harbor, right beside that spot where the Akron's silver nose was wont to rest at night, is a bronze plaque, a memorial to the Shenandoah, wrecked by a "twister" over Ava, Ohio, September 3, 1925.

There is no sound of life about the Los Angeles, for the ship has been decommissioned for more than a year. Beneath her lofty sides are parked more than a dozen automobiles, the property of members of the gallant airman who died aboard the sky vessel they so often proudly vaunted.

Across the countryside, not a quarter of a mile away, is the recently constructed cathedral of the air built by various fraternal organizations as a lasting memorial to all those men who lost their lives in the American air service. The Shenandoah disaster was the inspiration for this monument.

## LETTERS TO THE NEWS

Letters Intended For The  
Column Must Be Signed With  
Name And Address Of Writer

The following paper was delivered at a recent Tax league meeting in the eastern part of the county by the undersigned writer and attracted so much attention among those present that it was forwarded to The News for publication:

### SUPPORT YOUR TAX LEAGUE

We are at war with our extravagant government and public utilities. We are forced into this battle in order that we might save our farms and homes which are about to be taken from us through high taxation and high utility rates.

In order to win this battle, which we can and will, we need the support of every American citizen or taxpayer. Our aim is to build up a new government throughout our land with honest citizens, who will lower our taxes through a more economic system of government. We have let our government experiment long enough in a number of ways at our expense.

This reminds me of an experiment of a neighbor of ours which was talked out when I was a boy and proved to be a success. He planted five acres in potatoes on the 17th day of July, and reaped a harvest of more than 1,300 bushels. A number of us neighbor boys helped him harvest and store them. After we had finished the task and were sitting around the supper table, he made the remark that this experiment had been a good one. A neighbor who had been helping answered him saying, "Frank, the Lord took good care of you this time, but don't try it again."

That has been the way with our government officials. The taxpayers have taken good care of them. We hear a great deal of talk among some of our editors, that we cannot cut the standard of our public not out the standard of our public and extravagance? That is what we are endeavoring to stop. Have we cut the standard of milk and eggs and other commodities which are selling below the cost of production?

There has never been a time in history of our government that it needed a better like the present, when governmental costs have increased from 1913 to 1931 by one billion, three hundred million dollars, and the cost of local government, five billion, two hundred million dollars. Society has brought about a lot of this extravagance.

Here is an illustration. Say three or four of our legislators have some friends who have not been able to keep up in society. They bring a resolution before the house and make it a law, backed by the board of health, that all cows while being milked must be put in slings in order to keep a low bacteria, for while being milked should their feet touch the floor of the stable, the milk will be injurious to people's health. It is a mystery if they do not add an amendment to the Edmunds act, since the beer bill has passed, that all country high schools must be equipped with a bar for the benefit of the students, in order that they may keep up with society.

Don't let some politician who is endeavoring to keep his pockets greased with our tax money influence you that nothing can be done, while the rest of the people's support lead us to victory which will not only build sounder government, but will bring back prosperity. Then we will be able to sing "Happy days are here again." In conclusion, let us urge of every local office holder that they frame the word economy in their minds and use the definition to the utmost extent.

commented for cutting the Gordian knot with which such expenditures have been tied in the past and in insisting on retrenchment.

It is believed by the SALT LAKE DESERET NEWS that "the President is seeking to influence world opinion by this policy." That paper continues: "Facts rather than promises make his sincerity manifest. Such an example is needed in this fear-ridden world, which could raise its living standards ten per cent with the present cost of maintaining armies. War with our neighbors on this continent is of course unthinkable. We have not a single foot along our land frontiers. If we go to war, it will be in Europe or Asia. Public opinion would certainly not support a war now to settle the boundary disputes of Czechoslovakia or Poland, or possession disputes over Dalmatia or the Rhenish provinces. Neither would it support war in the Orient, except as part of a police force in which the great powers might unite to maintain order."

## House Debates Inflation Bill

Democratic Leaders Confid-  
ent Of Success For In-  
flation "Rider"

SNELL SPEAKS  
AGAINST BILL

By WILLIAM S. NEAL  
International News Service Staff  
Correspondent

WASHINGTON, May 2.—The ad-  
ministration's currency inflation  
"rider" to the farm relief bill was  
opened to debate in the house today  
with Democratic leaders confident  
of overwhelming approval.

Employing unusual parliamentary  
tactics to force a final vote, probab-  
ly tomorrow, house leaders present-  
ed a special rule sending the farm  
relief provision to conference and  
ordering a vote on the currency pro-  
visions.

Rep. Bertrand H. Snell of New  
York, Republican leader, took up  
cudgels against the measure, which  
he said opened the United States to  
the danger of "uncontrolled expan-  
sion." He admitted he faced over-  
whelming odds.

The brunt of the battle for the  
measure, which grants the president  
power to devalue the gold dollar, is-  
sue \$3,000,000,000 in greenbacks, re-  
quest the federal reserve to put a  
like amount into bond operations  
and accept \$300,000,000 silver in pay-  
ment of foreign debts, fell upon  
Rep. Steagall (D) of Alabama,  
chairman of the banking commit-  
tee.

(Special To The News)

MERCER, Pa., May 2.—Judge

county and other sources and was  
found to have 575 pounds of the  
flour that is being given by the gov-  
ernment to needy people, stored in

MISS WORTH MONEY—  
EVEN IN FRANCE

(International News Service)

PARIS—A kiss is worth money.  
This is what the correctional  
court recently decided in the case  
of a young dentist who, upon fin-  
ishing work on the teeth of a  
charming woman, terminated the  
whole business by a fond kiss.

The recipient, however, complained  
to her husband, who wrote a de-  
clamatory letter to the affectionate  
dentist and for which he ordered  
the husband to appear before the  
correctional.

The husband's lawyer pleaded in  
vain, but the tribunal ruled the  
dentist had been defamed and  
should receive three hundred francs  
damages.

## Notables at Opera Ball

In a determined offensive to drive the wolf from the doors of the historic

is Prince Hohenlohe and his Princess, the former Mrs. Gifford A.

## Electric Power Magnates Enter Senate Protest

First Attack Fired On Admin-  
istration's Budget-Bal-  
ancing Tax Bill

By WILLIAM K. HUTCHINSON  
International News Service Staff  
Correspondent

WASHINGTON, May 2.—The first  
Senate attack on the adminis-  
tration's budget-balancing tax bill was  
fired today by spokesmen for the  
electric power utilities, protesting  
against a 3 per cent tax on their  
business.

William J. Hagenah, Chicago at-  
torney, told the Senate finance com-  
mittee the tax would place a "crush-  
ing burden" on the industry, force  
higher rates and throw thousands  
of employees out of work. He declared  
the power companies would have to  
effect enormous economies in order  
to offset the tax.

The tax was imposed this year on  
consumers, but the House transfer-  
red it in the new tax bill to the

power companies. It was expected to  
bring in \$39,000,000 a year.  
The other sections of the bill in-  
cluded a one cent federal tax on  
gasoline and an authorization for a  
reduction in postal rates.

was tired of having them panhand-  
ling people of the city for money  
with which to buy rum and simi-  
lar concoctions to get drunk on.

**H**OLLYWOOD! Beautiful movie actresses! 694 of them!

Have you ever wondered why 686 of these 694 important actresses, the loveliest in the world, use *this* beauty soap—have used it for years?

\* \* \*

If you've ever stopped to think of it, you realize a sad fact about your skin. Year by year, imperceptibly, it *ages*.

But did you ever hear that, as your skin grows older, it *loses* something? That something goes *out* of it?

*The Secret of Youthful Skin*

Skin, science has found, contains certain precious elements. These elements, found in youthful skin of every type, keep it fresh, smooth, attractive, young . . . help guard it when exposed to wind, dust and sun.

The gradual loss of these elements is what makes skin get old looking, dry, rough, unattractive. But scientists give this welcome and all-important message—you can now *check the loss* of these precious elements.

*This Soap actually contains Precious Elements found in skin itself*

For years women everywhere have learned from experience how regular care with Lux Toilet Soap makes their complexions fresher—more youthful—more attractive.

And now scientists attest the fact that Lux Toilet Soap, with its complete freedom from harshness, its ready solubility and its content of such precious elements is an unquestionable aid in keeping the skin young looking . . . softly smooth.

Small wonder that Lux Toilet Soap is used by nearly all of the famous screen stars, who *must* keep their skin radiant, smooth, young looking! Small wonder it is the *official* soap in all the large Hollywood film studios.

*A Younger Looking, Lovelier YOU*

SCIENCE tells you that pure, safe Lux Toilet Soap actually contains precious elements all skin *must have* to look youthful. These elements are found in the skin itself—an abundance in fresh, youthful skin, less in skin that is growing old, unlovely.

HOLLYWOOD has proved through years of daily use this soap actually keeps every type of skin younger looking.

MILLIONS of women (and men) everywhere confirm Hollywood's experience.

Won't YOU prove the beautifying effect this fragrant, white Lux Toilet Soap can have on *your* skin?

**"It has made MY skin look younger"**

"What the Hollywood stars say about Lux Toilet Soap is exactly what I've found out in my own case," writes Miss Evelene Miller of New York. Miss Miller adds: "I've been using this soap for three years now and I find it really has made my skin much younger looking. It's certainly a marvelous soap all other ways, too. I will never use any other!"

### School Is Over For Oakridge Youngsters

Start Vegetable Garden At Home; Appreciate April Donations

All but two of the eighteen boys and girls of the Crawford-Oakridge children's home are through school for the summer and have turned their thoughts to play, light chores and gardening. The closing exercises were conducted at Sunny Avenue school, where most of the youngsters are students, last week. Two are attending Union high school.

A garden plot on the grounds was plowed yesterday and will be planted with vegetable seeds this week. The older boys take quite an interest in the gardening, and showed themselves to be adept at the work last fall.

Mr. and Mrs. Harry P. McBride have been in charge of Crawford-Oakridge for one month now, having taken it over in the first of April. They have been working hard. A new composition flooring has replaced the first floor covering of the building. The kitchen ceiling has been entirely re-plastered. Other improvements to make the home more comfortable for the children have been made.

Mr. McBride states his appreciation of services and gifts given the children by the following individuals and organizations during the month of April:

William Llewellyn and sons—18 haircuts.

Legion of Honor—took children to circus.

Phalanx—18 Easter baskets. Also, they treated the youngsters to a show at the State Theater.

Quota club—ice cream and dyed eggs at Easter, jig-saw puzzles and ice cream on another occasion.

Walmo club—sewed and made towels.

The home is maintained by the county and is under the supervision of the county commissioners. It is located on North Liberty street extension.

## Urge Increase In Relief Allowance

Socialists Declare Inflation Will Make Need For Larger Allowances

Urging an increase in relief or order allowances to meet the rise in commodity prices due to inflation, the local branch of the Socialist party passed a resolution at the last regular meeting which is being sent to Governor Gifford Pinchot, the Board of County Commissioners and Rev. G. S. Bennett, chairman of the Lawrence County Emergency Relief Board.

The resolution sets out that inflation measures now before Congress will result in swift increases in commodity prices, and that these increases should be met by similar increases in relief order vouchers, based upon the standards of commodity prices of March and April.

A great President is one who has power enough to do what is necessary and sense enough not to get the swell-head.

**Insurgents Seek Heavy Tax On Large Incomes**

(International News Service) WASHINGTON, May 2.—The administration's budget balancing tax bill, which the insurgents hope to use as a vehicle to make the rich pay for numerous relief activities, started a clamorous journey through the senate today with hearings starting before its finance committee.

The bill, as it passed the house, continued the one-cent a gallon federal gasoline tax for another year, shifted the 3 per cent electrical power tax from the consumer to the producer and authorized the president to reduce postal rates in order to garner increased revenues.

The gas tax was estimated to bring in \$150,000,000 a year and the electrical power tax another \$39,000,000. Postal authorities said the reduced postal rates might bring in \$50,000,000 more revenue a year.

## Ruth Bryan Owen Not Excited Over Going To Denmark

Daughter Of Late Great  
Commoner Says She Will  
Try To Make Good  
Minister

Children Will Accompany  
Her, Also Girl Secre-  
tary; Busy Pack-  
ing Trunks

By DOROTHY DUCAS  
International News Service Staff  
Correspondent

WASHINGTON, May 2.—Four years of working with men on capital hill have fitted Ruth Bryan Owen for her new job as minister to Denmark, the handsome daughter of the late William Jennings Bryan said in an interview today.

She will sail next week for Copenhagen, confident she will be called upon to do nothing she has not already been prepared for in congress, she declared.

"I shall have to call and leave cards for the other ministers, who are men, but what of it? I have learned to overlook sex distinctions in congress," she explained.

Favorable Reactions.

"I am really thrilled to death that a woman—not Mrs. Owen, but a woman—has got another new job."

It is wonderful to me to see how women are coming ahead. I am reading now all the press reports dealing with Denmark, and I was interested to note the reaction to rumors of my appointment was favorable. Denmark is a country in which women have been recognized."

Mrs. Owen, in between packing, is learning Danish. But that packing job represents one drawback to being a woman.

"If I were a male minister, my wife would attend to it," she groaned with more seriousness. "I went through 17 trunks to find a miniature of my father and myself which I wanted to take with me for luck."

Good Luck Charms.

"I am taking all my household goods with me. My 12-year-old daughter, Helen Rud Owen, has found the most remarkable relics she wishes to take along. An old Japanese sword three feet long that would cut everything in a trunk a red table cover embroidered in white daisies, and a heap of ostrich feathers."

Mrs. Owen has only one problem of etiquette which is somewhat snarled. When she is presented at the Danish court she does not know whether to curtsy as a gentlewoman does, or formally bow, as does a minister of a country. She rather thinks she will curtsy first, then bow, thus keeping intact her two characters.

Madame Minister.

She will be—and is already—called "Madame Minister." She is in Washington now, being feted until May 3, when she will go to New York to fulfill three speaking engagements, returning here on May 6. She will sail on May 11 on the Scanstons, a new ship going directly to Copenhagen. Two of her four children will accompany her here, Helen and Bryan Owen, who is 20. She is

also taking her secretary, a 20-year-old girl, who was one of the high school students she brought up to Washington from Florida in a competition several years ago.

Mrs. Owen revealed that the ancestor of her father's who came to America in the early part of the 17th century came from Denmark. He was Morgan Bryan, who was expelled from Ireland when his father became embroiled politically.

Two years ago Mrs. Owen and her children spent a summer motoring through Denmark.

## Deny Roosevelt Plans To Attend London Parley

(International News Service)  
LONDON, May 2.—Reports that President Roosevelt will visit London during the forthcoming world economic conference caused great excitement in British official circles today.

Although it was impossible to confirm the reports, which were denied by white house spokesmen in Washington, Whitehall circles expressed belief an address before the conference by President Roosevelt would greatly enhance its efforts to combat the world economic crisis.

It was understood that Prime Minister MacDonald, now enroute to London from Washington, where he conferred with the United States chief executive, informally suggested during their talks that President Roosevelt come to London while the conference is in progress.

## Undecided On Vote On Inflation

Democratic Leaders Are Undecided On Time Of Calling For Vote

(International News Service)  
WASHINGTON, May 2.—A hopeless battle against the inflation rider to the farm bill was waged in the house today by Republican leaders, who frankly admitted their chief hope is to "educate" the country to the dangers of uncontrolled expansion.

After bickering with the Republicans and several times changing their positions the Democratic leaders were undecided on the time to call up the vote. Chairman Pough of North Carolina set the vote for today, while Rep. Byrns of Tennessee, Democratic leader, asked that a vote be taken tonight.

# LEONARD ELECTRIC REFRIGERATOR

Nothing Changed but the Price  
Leonard Quality Never Changes

NOW you'll be glad you waited!  
Here's the Leonard Electric you have always wanted—at the lowest price ever asked for a real electric refrigerator of known quality.

This is not a special model. It's not "built down" to the price. It's exactly the same beautiful, roomy, long-lived and dependable 1933 Leonard that was recently introduced with spectacular success at a much higher price.

It has the sturdy one-piece steel exterior finished in hard, non-fading Leonard lacquer—one-piece interior of famous Leonard porcelain (clean as a china dish)—all-porcelain cooling unit—Chill-ometer with 8 freezing speeds—Steady Kold Defroster (refrigerates while it defrosts)—a surprising amount of shelf room and exceptional ice capacity.

Place your order to-day. It is safe to say there will never be a better price or a better value.

## New Castle To Face Test In Canton Battle

Bridenbaugh May Give Anderson Chance To Start Canton Game

GAME TO START AT 9 O'CLOCK D. S. T.

New Castle High School football team held a fine workout at Taggart Field yesterday afternoon with Coach Phil Bridenbaugh impressing upon the minds of his young hopefuls that they face the big test Friday night when Canton McKinley high comes here. Canton McKinley is rated as one of the strongest scholastic grid teams in the state of Ohio.

Faculty manager Ralph H. Gardner has announced that the starting time of the game Friday night will be 9 o'clock Daylight Savings Time. The fans are asked to take notice of the change in time over last Thursday night.

If New Castle High can take the measure of the Aiken coached Canton machine the possibilities of a winning eleven this fall will be much greater. Canton will come to New Castle hoping to stop the winning streak of the Bridenbaughs.

Anderson May Start  
In the workout yesterday afternoon Bridenbaugh had Anderson running in a halfback post along with Lane, Ridley and Komine and it would not be surprising to see this backfield start Friday night. With Anderson and Lane in the backfield the New Castle team boasts of two speed merchants. Anderson won his spurs in the game against Campbell by his fine showing. Tommy Jones is still battling hard for a berth and the fleet-footed youngster will give the boys a lot of trouble. Jones is a shifty player and only lacks the experience.

The line was given a lot of hard drills Monday afternoon with the same group that started the Campbell game holding their posts, such as Fred Shelloff, Alex Shelloff, Raskowski, Palkovich, Howley, Humphrey and Miles.

**Golf League To Meet Thursday**  
City League Will Likely Start Season On May 11, With Twelve Teams

Representatives of the various teams enrolled in the City Golf League, will make final arrangements for the opening of the season on Thursday evening, when a meeting will be held in the Municipal Club house. The league will likely open its season Thursday May 11.

The rules committee will report at this time, and all team representatives are asked to have their complete roster turned in to Secretary Walter DeArment by that time.

The league will play its games at the Municipal and Castle Hills courses, and will use both courses on Thursday evenings, half the teams playing on each course in order to cause less inconvenience to others who may wish to play golf on this evening.

Indications point to a most successful season this year, the league having proven extremely popular with the golfers last summer.

Duquesne U. Officials Optimistic Concerning Frank Stanish

Athletic officials of Duquesne university, Pittsburgh last night expressed optimism over the condition of Frank Stanish, Bessemer, who suffered an injured neck in a football practice game on the Bluff gridiron Saturday. Stanish is in the Mercy hospital, Pittsburgh.

According to reports an X-ray taken Saturday showed no fracture of the vertebrae as was at first feared, there has been no paralysis nor any other unfavorable developments. However, he is being kept quiet and another X-ray will be taken soon to make certain the injury is merely of a minor nature.

Stanish is a sophomore in the school of pharmacy and plays a guard position.

## Shenango Bows To Bessemer

With Three Games Won Bessemer Will Play Wampum

Bessemer high school chalked up their third victory of the baseball season by defeating Shenango high five to four in a seven inning game yesterday at Bessemer. The score was tied until the last inning. Bessemer will play Wampum at Wampum, Wednesday.

## National Open Field Dwindles

Only 525 Of Nation's Best Golfers Enroll For National Open Championship

THREE BIG STARS ARE NOT IN LINE

By DAVIS J. WALSH  
International News Service Sports Editor

NEW YORK, May 2.—Unless upward of 500 additional entries get in under the wire between sunrise and the dead line at six o'clock tonight, the national open golf championship of 1933 will play to some extent slightly better than fifty per cent of its normal man power. This is not idle surmise. It is based on accurate figures, available at the headquarters of the United States Golf Association where it is guardedly admitted at this time that life is not a bowl of Indian relief.

Only 525 Entered  
The figures are succinct but enlightening. This morning there were roughly speaking, 525 entries on the line. By nightfall, the total may go up to an approximate 600, possibly a few more, probably quite a few less. Last year, the total entry was 1,012.

The inference, therefore, is reasonably clear that the national open championship in golf is, for the time being pretty much like the ruffie, the bustle and the Yale football team. It isn't what it used to be.

Of the big tournament names, however, only three are missing. They are T. Phillip Perkins, the reformed Englishman who placed third last year; Densmore Shute, the new hand at Llanerch outside Philadelphia and Mortie Dutra, brother of Olin.

They may make it in one of the late mails. Even if they don't the tournaments can't go far wrong in general quality.

**JOIN VENANGO LEAGUE**  
Two of New Castle's diamond stars, Willie Schick and Paul Fahey, played their first game last night with the Venango county baseball league at Franklin. The two expect to remain there for some time.

## DUKE GRID ACE NOW TRACK STAR

Fred Crawford, brilliant tackle on the Duke university football team last autumn, is now one of the best track men in the south. Fred runs the 220 in near record time and is regarded as a pretty sure point winner in the javelin toss and discus throw. Crawford was a great aid to Duke in winning the Dixie track title this year.

## Ladysman Picked Castlewood At As Derby Winner Bessemer Today

Eastern Horse Carries Favorite Money In Coming Kentucky Derby

(International News Service)  
LOUISVILLE, Ky., May 2.—One of the high spots of derby week, the preparation purse at a mile, brought some of the leading western hopes for the fifty-ninth renewal of the Kentucky Derby Saturday into the limelight today.

Two of the leading western hopes were named to perform in this stretch at the Downs, head Play and the right O. Bradley's string likewise are among the ten derby eligibles nominated to start in the preparation.

Boilermaker and Fingal, it was understood, are running today for the right to accompany Col. Bradley's broodmare's tip in the \$50,000 added classic Saturday.

**Ladysman Favorite**  
Meanwhile the eastern eligibles were moving into the battle ground. Ladysman, the derby favorite, is due to arrive tomorrow with Trace Call and Call Boy to bring the eastern contingent to full strength.

Eastern arrivals from Maryland yesterday included Mr. Khayam, Chesapeake stakes winner; Good Advice, Sarada, Silent Shot, Inlander and Kerry Patch.

Betting odds against Ladysman have dropped to 3 to 1 and may go to 2 to 1 or less before the classic.

The Nash brothers' filly At Top was the only candidate trotted out yesterday for a workout before the eyes of several hundred early visitors who gathered at Churchill Downs for a glimpse of the thoroughbreds. At Top traveled three furlongs in 34-4-5 as a conditioner for the preparation purse today.

With the withdrawal of Red Whisk by its owner, C. C. Van Meter indications today were that the field of starters Saturday will not exceed 20.

Relief at last! Apply the 30-hour week to farmers at plowing time and there won't be any surplus.

## Lefty Miller Baffles Brent

After Holding Brent In Check, Gives Way To Shaffer

J. SERWATKA IS FREE WITH WALKS

Lefty Miller was poison to Brent yesterday and Volant blanked the coal miners six to nothing in their first game of the National loop, County league baseball. After Volant established a safe lead by scoring three in the first, Miller bore down only in the pinches and finally gave way to Shaffer. J. Serwatka hurled for the coal miners.

Serwatka was very wild and he issued seven passes, nullifying his seven strikeouts. Several blows off Serwatka landed on the night field hill and went for hits. Each team made two errors but the errors did not result in any scores against Volant but did complicate things against the Miners.

County Detective H. Martin (Peck) Lee donated the balls for the game and threw up the first ball and with several hundred fans looking on Volant proceeded to take over.

## Suber Is Victim Of Unfair Decision

Spectators At Massillon Match Do Not Take Kindly To Referee's Decision

Morrie Suber, New Castle's well known 178 pound grappler lost a decision in his match at Massillon, O., on last Friday with Tony Elmo, 180 pound Pittsburgh lightweight mat artist, but he made untold friends through his magnificent showing and because of the unfair tactics used by his opponent, over whom he had the best of it most of the time. Twenty-eight minutes was the time record in the pinning of the shoulders of Suber to the floor by Elmo.

The Evening Independent of Massillon, says of the contest: "Tony Elmo, the 180 pound Pittsburgh light heavyweight showed the fans a new way to win a verdict on the mat Friday evening, but the spectators did not take so well to his teaching, in fact they were up and ready to throw both Elmo and Referee Walter Tooley out of the ring, for alleged discrimination against Morrie Suber, 178 pound New Castle, Pa., grappler, who Elmo pinned to the floor in 28 minutes of a bout scheduled to a finish in the Community Building."

**Wrestling Ban In Illinois Dropped**

State Boxing Board Decides To Allow Wrestling Bouts Again In Illinois

(International News Service)  
CHICAGO, May 2.—Wrestling in Illinois regained its freedom Monday when the State Boxing commission voted to lift the ban on the mat sport.

The ban was put into effect several weeks ago following the Joe Savoldi-Jim Lomas match. Savoldi took the decision over Lomas, one of the claimants to the heavyweight title.

To "protect" innocent fans the commission ruled that hereafter all bouts must be conducted strictly as "contests" or "exhibitions." Contests must be conducted strictly under the rules of the Illinois Athletic commission, which means that they must be wrestling matches and a test of strength and skill.

It's all hokey about things being cheaper. The "\$15 article" now selling at \$6.95 would be dear at \$1.98.

PHILADELPHIA, May 2.—Kid Chocolate, of Cuba, had no trouble defending his junior lightweight title against Johnny Farr, Cleveland, in their ten-round bout here last night. Chocolate, back to the rings wars after an enforced vacation in Havana, started slowly but finished with a rush to win the decision. He floored Farr three times in the last round.

## Between Innings

SUNSHINE MEETING  
Sunshine baseball club will hold a meeting at 7:30 p. m. Tuesday night in the club's rooms. Matters of baseball importance will be discussed. Those interested in the team should be present.

**GREENWOOD M. E.**  
The Greenwood M. E. baseball team will book games with first class teams. The team holds a franchise in the Ellwood City Church League. For games write to Charles Harper R. D. No. 1, New Castle. There will be a meeting at the Shaffer store tonight and all players are requested to attend the meeting.

**COURT HOUSE SLUGGERS**  
The Court House Sluggers won their opening game of the season Monday evening at Boston Field by taking the measure of the Walnut place A. C. 17 to 4. The stars of the game for the Court House team were Joe Johnston, Dunlap, Dinsmore, Thompson, Stevenson, Minick, and McCandless, with Black, Boston, Dour and James the best for the losers. Dunlap hit a home run with the bases loaded.

Smith A. C. won their second baseball game of the season when they defeated the Harleys 7 to 3 yesterday. Tava tripled with three on bases. His blow was the game's feature. The Smith A. C. wants games with teams, players of which are 16 years of age. Managers should call 3889M.

Pearson A. C. Mullah team downed the Friendship Stars 20 to 5 Monday. P. De Vito and N. Cagnetti hit home runs. B. Gillespie and J. Rich banged out doubles. In addition to hitting a homer, Cagnetti pitched a good game. The teams would like to arrange games which can be booked by calling Manager F. Cozza.

Paul Turco poled a home run with a runner on the paths and the runs were enough to win for the Lionses to win from the Forest A. C. 10 to 9. It was a mullish game. Cooper pitched for the Forest A. C. Both Turco and he allowed 10 hits. Forest did not play as fast a fielding game as Lionses.

On the Gaston park field this evening the Gaston Juniors and Centennial A. C. will clash and on Wednesday evening Gaston Juniors and Lehigh A. C. will play. The Gaston Juniors are anxious to fill their schedule and contests can be arranged by managers calling Dave at 2514R.

**Cubs Falter.**  
The Cubs' pitchers have faltered, with Warneke and Malone both losing their last two starts, and Kiki Cuyler is missed in the outfield. Some of Connie Mack's rookies have not yet found their bearings.

Only Hamilton and Carleton have been able to win for the Cardinals, supposed to have the best mound staff in the National League.

The same situation prevails on the Brooklyn Dodgers where two new men, Walter Back and Owen Carroll, have turned in six of the team's seven wins between them. This circumstance, however, raises Brooklyn's pennant stock because two recognized stars, Clark and Bengie, have worked but one game apiece and another, Mungo, has not started a game.

The Yankees also have shown a wealth of pitching talent that is discouraging to rivals. They have produced two star rookies in Van Lina and Brennan, and will have another winner on deck shortly in Johnny Allen. Freshman sensation of 1932, who has been sick.

**Runs Help.**  
Cleveland also was fixed with five crack right-handers of shape. One of them, Oral Hildebrand, who turned in a one-hit classic in his last start, held the White Sox to five bingles yesterday, winning 8 to 1 and tying the White Sox for third place. It was his fourth straight victory. Burnett and Vosmik hit homers.

Homers by Vaughan and Grace, each with the bases full, and Bill Swift's steady pitching featured Pittsburgh's 10 to 0 landslide over the Phillies in the only other game scheduled. The Phils, already handicapped with Capt. Pini Whitney on the hospital list, lost the services of another star when Outfielder Hal Lee injured his leg.

**Garlands Defeat Orrs By One Run**

Each Team Is Liberal With Bats And Four Hurlers Suffer

Garlands of West Pittsburgh defeated Orrs in a non-league game 10 to 9 at West Pittsburgh yesterday. Vessello and Banko pitched for West. Muccio hurled for Orrs. Each team got 13 hits. Garlands won out in the seventh when they broke a deadlock and scored the eighth and winning run. J. Markley, R. Elssesser and Fundouts delivered triples.

## Canal Building Would Aid Idle

Estimate Greatest Part Of  
Cost Would Go For Labor  
On Construction

NEW COST PLACED  
AROUND \$30,000,000

Construction of the Beaver-Mahoning waterway project, the estimated cost of which has now been placed at \$30,000,000, would provide for the payment of almost 75 per cent of this amount in wages for construction work on the canal and on the materials which would be used in its construction, J. C. Argersinger, a member of the Beaver and Mahoning River Association, has stated in an appeal to President Roosevelt to have the project started.

About fifty per cent of the cost would be for wages on the construction of the locks and dams, while around 25 per cent would go for wages to those providing the materials for the dam.

Immediate construction on the project would provide employment for almost all the unemployed in the Beaver and Mahoning Valley, if the work was carried forward simultaneously at all points.

A meeting of the National Rivers and Harbors Congress will be held in Washington on Friday, when further action on the local project may be taken.

Some News, Some Views, But  
Mostly Just Observations  
Of Interesting Things  
Around New Castle

One of the service station men had a customer Sunday who heads the list of New Castle athletes who crashed the headlines away from home, Carl Forkum. To most of us or say a lot of us, Forkum is just a name, but to some of the older sportsmen he stands as the brightest glimmer in a constellation of stars.

In high school he stood out as the best athlete up to his time, and while there have been a host of stars since his day, none of them have yet outshone his brilliancy. Not only did he shine in the high-school field, but going on to college glittered even more brilliantly.

At Penn State he did anything anybody else could do but did it better. State will always have him listed as one of the sports immortals, for his achievements still out undimmed by the years.

Now and then he gets back to New Castle. He lives in Donora where he is engaged in the manufacture of steel. In addition he is a member of the Board of Education there, and I wonder if he didn't permit himself to be placed in that job with the idea of helping the boys a little in their quest for sport supremacy.

It must be something like that. Nobody ups and runs for the School Board in any city just to have something to do. Either he is willing to sacrifice a lot of time and energy in a job that returns little thanks or he just wants to see the wheels go around.

If your haven't turned your gold into the government stand by for trouble. One subscriber wants to know if gold fish and gold fillings are included in Uncle Sam's demand for his gold. Not so lady, gold coin, bullion or certificates providing you have more than \$100 worth.

May Day was celebrated on May 1 by at least one group of students. The children of St. Phillips and James held their annual exercises on the lot back of the church Monday afternoon, and following out the tradition, it didn't rain. It never seems to rain for them on May Day.

The first day of Daylight Savings saw the folks taking plenty advantage of it. The golf courses of the city did a big business, and the amateur gardener really got a fair cut at his garden last night. With daylight hanging on until after eight o'clock you have time for a lot of things, but none of them seem to include time to get to bed early.

The announcement that 5000 packages of seeds will be given away in this county may not sound like so much until you realize the size of packages. And if only fifty per cent of the stuff grows, the vegetable market will be glutted by the middle of September.

## Boy's Leg Broken When Hit By Auto

Coasts On His Wagon Direct-  
ly In Front Of The  
Automobile

Carl Schuller, aged 11, of 302 South Ray street, sustained a compound fracture of the left leg Monday afternoon, when the wagon in which he was coasting on Ray street, was struck by the right front wheel of the automobile of Miss Mildred E. Smith of 108 North Ray street, which was enroute south on Ray street about fifty feet south of Court street at the time.

The boy pulled to the right curb, then across the street in front of the automobile. He was picked up by Miss Smith and her brother and taken to the Jameson Memorial hospital, where the extent of his injuries was determined.

## St. Mary's Sodality Elects New Officers

Interesting Meeting Of Young  
Ladies Sodality Is Held  
Monday Evening

A well attended and enthusiastic meeting of the Young Ladies Sodality of St. Mary's Parish was held last evening at the church. New officers were elected at the meeting as follows: President, Helen Maher; vice president, Catherine Nugent; secretary, Catherine Connors; treasurer, Mary Maher; district directors, East Side, Rosena McGurk; North Side, Angela Barnes; West Side, Marie Fulkerson.

Plans were made for a card party to be held in St. Mary's auditorium on Tuesday, May 9.

## Farmers Income Declines Less In Pennsylvania Than In Nation At Large

By ARTHUR C. WIMER  
Special Washington Correspondent  
New Castle News

WASHINGTON, D. C., May 2.—The gross farm income in the past four years declined to a smaller degree in Pennsylvania than in the country as a whole, according to an extensive survey just completed by the Bureau of Agricultural Economics.

The bureau based its survey upon the income from 78 crop and 13 livestock items combined. The gross income of Pennsylvania farmers from such items was 46 per cent smaller in 1932 than in 1929. In the same period, the gross income of farmers in the country as a whole fell off more than 57 per cent.

The gross income of Pennsylvania farmers from the crop and livestock items in 1929 was \$356,614,000. In 1930 it declined to \$312,910,000, continuing to decrease to \$250,338,000 in 1931 and to \$189,754,000 in 1932. The gross income of Ohio farm-

ers fell off 55 per cent from 1929 to 1932, declining from \$406,060,000 to \$181,278,000.

## Would Exempt Newspapermen In Testifying

Sordoni Proposes Bill Making  
Newspapermen Immune  
From Testimony In  
Court

(International News Service)  
HARRISBURG, May 2.—Senator A. J. Sordoni, Luzerne, today was sponsor of a bill providing that newspapermen shall not be required

to divulge the source of information published in newspapers. The measure specifies that no person connected with or employed on a newspaper would be compelled to disclose at a court trial, to a grand jury, or a legislative committee information procured and published in the newspaper.

An attempt to prevent the sale

and circulation of indecent and immoral literature by requiring the licensing of magazines and periodicals in Pennsylvania ended in failure when the senate law and order committee killed the Long house bill.

MILK KILLS BABY

sicians described as one of the most unusual cases of accidental suffocation caused the death of the eight months old son of Patrolman and Mrs. Albert R. Klay. The infant was placed in his crib with a bottle of milk and swallowed the milk down the windpipe instead of the esophagus.
